ABOUT THE BOOK: *Social Welfare and Social Development* discusses social welfare practice in global and regional context. It addresses issues of poverty, unemployment and populations at risk within South Africa and the role of the social welfare system in South Africa in tackling these issues. The first edition was groundbreaking in systematically outlining the theory and practice of social development, the model of welfare the South African government has chosen in order to address social challenges. The second edition includes fully updated discussions, reviewing changes in the social landscape since 2005. This book is the only South African text to develop and discuss the theory and practice of social development and it contains practical examples, case studies and end of chapter questions.

ABOUT THE AUTHOR: Professor Leila Patel is Professor of Social Development Studies and holds the South African Research Chair in Welfare and Social Development at the University of Johannesburg. She is also the Director of the Centre for Social Development in Africa at the University of Johannesburg. In 2014, she was awarded the Distinguished Woman Scientist Award in the Humanities and Social Sciences by the Department of Science and Technology, South Africa.

PANELLISTS: Professor Edwell Kaseke (Chair of Social Work at the School of Human and Community Development at the University of the Witwatersrand)
